This scientific research focus that “**AMMUTHAM**” shall be considered as **Universal Milk** (Divine Feed) for growth and sustainability of all “**Mammals**” of Universe including 6th sense **Human mammal**. The philosophy of “**Universal motherhood**” and “**Ammutham**” shall be described as below. Motherhood shall mean **THREE-IN-ONE** nature i.e. **SUN, EARTH, MOON**.

**AMMUTHAM
(Law of Divine Feed)**

- i) Right dot is **PROTON** (DNA Regulation)
- ii) Left dot is **ELECTRON** (**HORMONE Regulation**)
- iii) Center dot is **PHOTON** (**RNA Regulation**)

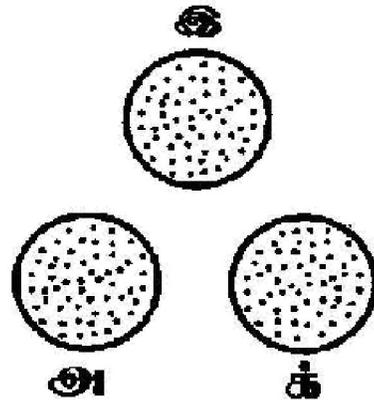

It is further focused that during the course of **expanding Universe** the **Universal milk** of superior world (**MARS PLANET**) considered descended to **EARTH PLANET** and become “**BREAST MILK**” (**Thaipal**). Billions of various types of milks of different mammals shall be considered derived from **Divine feed Ammutham**. The philosophy of Breastfeed (Thaipal) and varied milk species shall be described below:

(i)

**THAIPAL
(Law of Breast Feed)**

- ii) Left Seed is like **KARMAM** (Mercy)
- iii) Center Seed is like **BRAHMAM** (Hope)

2.0 Philosophy of “Universal motherhood”?...
“Motherhood” means delivering a beautiful child like “JACK FRUIT” after 3rd trimester?... No... No... No... It is hypothesized that the entire universe shall be considered created by supernatural person called by name by Author as “**RAMANUJAM**” who considered created everything through “**MOTHER JANAKI**” (Soul). The philosophy of **RAMANUJAM, MOTHER JANAKI** shall be described as below. In Proto Indo Europe root word “**SOUL**” shall be called as “**AMMUTHAM**”. Ammutham shall be considered as product of **THREE-IN-ONE** fundamental particles **PHOTON, ELECTRON, PROTON** and considered free from atomic elements like **HCNO**.

Angel mother.

3.0 Female ANGEL can do Breastfeed?...

It is hypothesized that the first “Parent Angel” shall be considered as natural populations spontaneously created by Ramanujam through soul. It is further hypothesized that the male angel shall be considered responsible for pregnancy and population growth through formation of **EGG** in the stomach of **Male Angel**. The Female Angel shall be considered as simply assisting male angel for safe delivery. It is

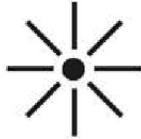

further focused that all **Newly born Angels** shall be considered took natural ‘**White Cloud**’ as food formed due to impact of “**J-RADIATION**” (Zero hour radiation of Universe). The female Angel shall be considered as having **no Breastfeeding mechanism**.

It is focused that during the course of expanding universe and ‘**Dark Age**’ of universe the Angel populations consider “**Transformed**” to Earth planet and started living on earth planet and further generated their populations. After transformation to Earth Planet, due to varied environmental condition and genetic structure of human, the **Female Angel** consider responsible for pregnancy and population growth through formation “**Embryo**” due to sexual act of male and female partner. The human population on the earth planet shall be considered as “**REPRODUCED**”

POPULATION” from the transformed genes of created human (**MARS ANGEL**).

It is further focused that the philosophy of Transformation of Human Ancestor from **MARS PLANET** to **EARTH PLANET** shall be narrated for Universal understanding. The Angel mother considered transformed into three stages of **evolutionary mother**.

(i)

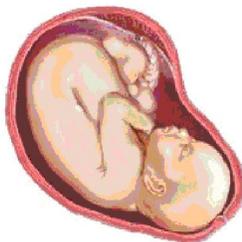

JANAKI
(Ammutham)

(ii)

THAI-e
(Mars Angel)

(iii)

AMMU
(Transformation)

(iv)

AMMA
(Mother of Earth)

It is focused that during expanding universe and varied climatic conditions the “**genetic value**” of milk shall be considered changed for growth and sustainability or life system on the earth planet under different environmental condition as described below.

- i) **JANAKI** is like Mother of **AMMUTHAM**
- ii) **THAI-e** is like Mother of **ETHIC FEED**
- iii) **AMMU** is like Mother of **REVOLUTION FEED**
- iv) **AMMA** is like Mother of **DEMOCRATIC FEED**

4.0 Philosophy of Breast Universe?...

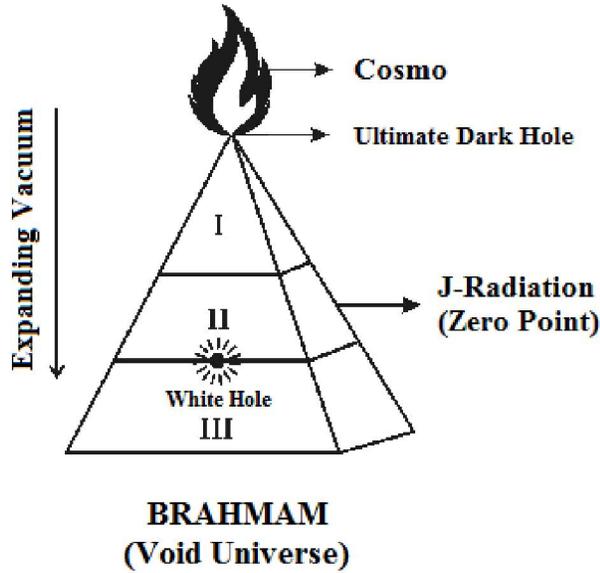

Medical science focus that breast feed provides idle nutrition for infant and contribute to their health, growth and development. Further breast feed triggers bio-chemical reactions which attributes for enzymes, hormones, growth factor, immunity substance to effectively depend against infectious disease. Scientist also confirm that the composition of breast milk changes depending upon how long the baby nurses at each occasion like fore milk, hinder milk etc.

It is hypothesized that the etymology of word **BREAST** might be derived from the proto Indo Europe root word **BRAHMAM, PIRAPANCHAM**. Brahmam shall mean void Universe, Pirapancham shall mean expanded Universe. Further the etymology of word **MILK** derived from the word **MEGAM** (Cloud).

It is focused that during expanding Universe the formation of various galaxies like **white galaxy, dark galaxy, blue galaxy, green galaxy, red galaxy** might lead to secretion of various genetically varied milk for evolution of various species of life system. It is further focused that the shape of **COSMO UNIVERSE** shall be considered like breast shape and secretion of different composition of milk like **white milk, dark milk, blue milk, green milk, red milk** from various

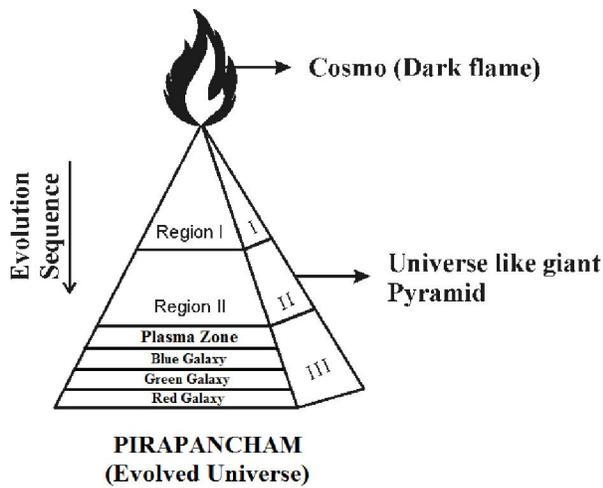

regions of the **BREAST UNIVERSE** during various occasions of growth of life system. The Philosophy of **BREAST UNIVERSE** shall be described as below.

(i)

- Region I – Perfect vacuum region (Anti-Neutrinos radiation)
- Region II – Partial vacuum region (Neutrinos radiation)
- Region III – Observable Vacuum region (EMR radiation)
